## ANTIBODIES DIRECTED TO TUMOR NECROSIS FACTOR AND USES THEREOF

## Abstract of the Disclosure

Antibodies directed to the antigen TNF $\alpha$  and uses of such antibodies. In particular, fully human monoclonal antibodies directed to the antigen TNF $\alpha$ . Nucleotide sequences encoding, and amino acid sequences comprising, heavy and light chain immunoglobulin molecules, particularly sequences corresponding to contiguous heavy and light chain sequences spanning the framework regions and/or complementarity determining regions (CDR's), specifically from FR1 through FR4 or CDR1 through CDR3. Hybridomas or other cell lines expressing such immunoglobulin molecules and monoclonal antibodies.
